

Feature Change Report

Skanda Design Studio update for Dr. Ranjith Neuro site

Updated: 17 May 2026, 01:05 PM

Completed Changes

- Updated footer credit from TechDr / techdr.in to Skanda Design Studio across all HTML pages.
- Removed visible booking and appointment CTAs from navigation, header buttons, hero buttons, service CTAs, sticky appointment buttons, and repeated page CTA blocks by wrapping the original code in HTML comments.
- Follow-up fix: contact.html no longer renders the footer heading ?Book an Appointment?; it now shows ?Speak With Our Care Team?.
- Follow-up fix: contact.html social/meta descriptions no longer use booking/appointment CTA language.
- Removed the booking page from sitemap and llms references.
- Added local SEO service-area metadata across pages for Manikonda, Puppalguda, Shaikpet, Narsingi, Kokapet, Gachibowli, Financial District, Jubilee Hills, Tolichowki, and Hyderabad.
- Added responsive stability CSS for mobile typography, footer wrapping, logo sizing, long text wrapping, hidden empty header CTA area, and disabled sticky booking styling.

Validation Summary

Check	Result
contact.html visible booking text	False by HTML parser
contact.html visible booking links	0 found
contact.html local HTTP check	HTTP 200 on http://127.0.0.1:8090/contact.html
Remaining booking strings	Only inside HTML comments, kept as requested

Deployment Note

The live URL will keep showing old text until these local files are uploaded/deployed to the website host and any CDN/browser cache is cleared.
